A good paper but Mathematics careless.

Intelligent paper showing considerable knowledge: history, writing, etc.

Good; but many answers too short. Geometry a little careless.

Contrast the "thought" in the poem with that in the prose composition! Only Whitson's can afford to write verse almost devoid of thought - like "Tyber" - and then because it is pure music. (This applies to nearly all the others). Much of the paper is good.

A very fair paper on the whole. Rough many answers are rather short. Maths show very little effort. Morna ended as before. she does not make the best use of her good ideas. Her mathematics show a good deal of effort.

1. many subjects good: algebra 3 should not be guessed but worked.

Very fair - rather weak in some places, but most of it shows linear effort. The work could reach a higher level. she are very sorry to lose her and our but wishes go with her.

* Allowance made for age.

English weak - handicapping all her work.

A very fair amount of knowledge shown: Latin & French need attention.

Writing handicaps her: some places very weak.

Writing and spelling weak still - eyes a handicap. Her illness has evidently not given her much chance.

English very weak. Her work is somewhat in progress (but not satisfactory).

There are still some spelling slips.

Rather unequal - never very strong though interest is evident. Margaret has made good progress this term. Conduct good.

Spelling & writing weak except when she is careful - Mathematics very good indeed.

Careful & intelligent work; a good standard.

A good level throughout. Algebra excellent.

A good paper - Mathematics very promising.

Very fair; Don't know her work is generally good all round. (Miss Van Stranburg's report)

In many parts very good especially English.

Very fair - rather weak in some places; but most of it shows sincere effort. (Miss Van Stranburg's report)

She shows intelligent interest in several directions; arithmetic promising. (Miss Van Stranburg's report)

Correctly pronounced; Arithmetic (not set) correct.

Almost no recollection of
quantities

He does not remember much.

Douglas has a very good little paper, but form shows for age. about 17 lines. about 17 lines. (This is from English - read)

This English & Arithmetic are very good.

It is evidently rather hard for him. Douglas has worked well in his new form though he has found some of the work a little difficult.

Not very strong. Nature study seems to appeal to him most. Conduct excellent. about 13 lines.

Spelling uncertain: on the whole excellent.

Scapher V. 2 is not quite the form of answer wanted - This 'history' not satisfactory. She finds her way through the difficult Geography & rather well. (very algebra question set) Miss Van Stronbecker report.

Her spelling is much against her. She work is not often very good but it all shows interest and power.

Most subjects the standard is good and interest shown. In most subjects the standard is good and interest shown. In most subjects the standard is good and interest shown.

Some subjects are very good: makes rather inaccurate. But was thrown once by a fortnight's absence in the middle of the term.

Her English work is good though the thought is not deep. She shows much conscientiousness. Her English work is good though the thought is not deep. She shows much conscientiousness. Her English work is good though the thought is not deep. She shows much conscientiousness.

A very good term's work and examination.

He has much to say and practices well. Nature Study a little weak.
(this observation remark)

A very good term's work.

He shows interest in most of the work & has made a good attempt.

Some subjects are very fair for his age - but he seems to have retained very little. He is a little different. Little do better next term.

Michael takes short but he seizes things fairly clearly. Michael's work is improving steadily, but he must give closer attention.

a good paper all round - very promising. Michael has worked harder this term and has made good progress.

Several weak subjects. The work is not so good as in the summer examination.

Tales very good - Geography good but work rather below average. He takes great interest in his work. Absent 16 times. (more than he has been present)

Large the mind of a man has his own. He suffered greatly. He has suffered greatly.

A very fair boy.

Very fair, but answers rather short. (has been struggling)

George has made good progress this term. He is ready for a senior.

Writing and knowledge a little weak. The French should be in her own hand.

Some good work done. She is very good, and it shows interest. Writing needs practice. Her work (this year) is very good.

Good work sometimes marred by untidiness. She both shows interest.

She is much handicapped by her poor writing. But very good. Rosalind could do better. She must make more continuous efforts to concentrate.

Spelling much better than writing. She has very little to say. Her general conduct much improved.

Not very strong in most subjects.

Latin special examination.

Arith: special exam: Prog. II A

Work in nearly all subjects. Algebra good. Rosalind has done well with arithmetic, but of the results not fully if she gave her about 5 times worse need to the task.

Algebra included, she has not done the work. Rosalind has made great efforts in her new form. Conduct very good.

Latin very strong paper. Several answers poor. Rosalind's work shows all-round improvement.

There are many short answers in spite of her interest. Writing work to express herself. Rosalind takes an interest in her work, but must try to express herself. About 2 days.

Too many gaps — unless she has been ill.

Rather unequal and subjects are fairly good. Bible lessons Composition very good.
(Miss Van Strien being a report)

Quite satisfactory progress

Some very good answers: there is rather a weakness in actual data - facts.
 Widely constructive.
 Joan has worked very steadily during the term. She has done some good work for the school & we shall miss her very much.

The work would sometimes be good but the writing out. Spelling & handwriting bad. Madeline's work is improving steadily. She takes pleasure in many subjects about O.	60 20 15 60 20 35 15 50 70 50 50 65 45 60 25 25 special 45 special 30 85 70 50 52 40 90 50 40/65 90/95	A weak paper in most subjects; doubtless her absence accounts for much of this. Shows much promise. Writing spelling poor & backward. Madeline has tackled her difficulties with great persistence.
